Legacy Awarded Exclusive Leasing and Property Management Assignment for Olympia Professional Building

We are proud to announce that Legacy Commercial Property Advisors and One Legacy Property Management (OLPM) have been awarded the exclusive leasing and management contract for the Olympia Professional Building.

Located at 6802 S. Olympia Avenue in southwest Tulsa, this multi-tenant medical building sits in a high-demand location adjacent to the Tulsa Spine & Specialty Hospital and serves a wide array of established healthcare providers.

This collaboration came to fruition thanks to Lisa Brandes’ and Jessica Reese’s advisory services and new relationship with the ownership at Dormie Capital Partners. With their understanding of the Tulsa office market and understanding of the ownership team’s long-term goals for the property’s success, they assisted with OLPM to oversee property management while securing Legacy the exclusive leasing assignment for this premier medical office building.

This transition comes at an exciting time for the property, which is currently benefiting from extensive common area upgrades initiated by new ownership. These enhancements, paired with OLPM’s best-in-class management approach, further solidify the Olympia Professional Building’s status as a top-tier destination for established healthcare providers in the high-growth Tulsa Hills area.

Legacy and OLPM are honored to be entrusted with the care of the Olympia Professional Building and we look forward to furthering its growth and creating the best environment for medical practices looking to establish their presence in the Tulsa market.
